

Knorr-Bremse Commercial Vehicle Systems

Examples of low quality Cores

Major Damages – Mechatronics

Heavily damaged ports, threads, housings, e.g. of circuit boards, deep scratches on surfaces caused by non-operational use

Major Damages – Mechatronics

Heavily damaged housings caused by non-operational use

Major Damages – Compressors

Broken housings

Major Damages – Compressors

Broken housings

Major Damages 1/5 – Air Disc Brake Calipers

Notch cuts / Abrasion / Broken tension strut

Major Damages 2/5 – Air Disc Brake Calipers

Broken / Flexed / Weld-off tappets

Major Damages 3/5 – Air Disc Brake Calipers

Abrasion on surfaces

Major Damages 4/5 – Air Disc Brake Calipers

Abrasion on surfaces

Major Damages 5/5 – Air Disc Brake Calipers

Abrasion on surfaces

Heavy Corrosion – Mechatronics

Heavily corroded housings

Heavy Corrosion – Compressors

Heavily corroded crankcases / housings

Heavy Corrosion – Air Disc Brake Calipers

Heavily corroded calipers

Incorrectly, incompletely assembled, disassembled condition – Mechatronics

Missing housing / Disassembled condition

Incomplete- Compressors

Missing cover
